The area of Monte Biarritz offers excellent connections to Benahavis, San Pedro Alcántara, Estepona, Puerto Banús and Marbella town within a fifteen-minute radius.

The first floor is distributed in a Master bedroom en-suite with its spacious private terrace and the second guest bedroom with its own bathroom and a balcony.

The roof floor offers a spacious solarium area with a pre-installation of a built-in Jacuzzi. There are some partial sea views from this level.

The basement level in this villa proposes at the moment a diaphanous space, which gives the new buyers yet the opportunity to make 1 or 2 extra bedrooms en-suite, a storage room, a gym, a cinema room etc..

There is a private pool, garden and the carport for 2 cars.

THE DESIGN:

The villa offers a modern choice of architectural design with a lot of natural light solutions, which perfectly fits them within the permanently modernizing neighbourhood and the green environment.

THE QUALITIES:

The interior spaces have been attentively planned to offer comfort and quality to the new home owners. The main focus was made on the use of the well known innovative design, high tech features and unbeatable quality of "Porcelanosa" materials, which is today a major reference in both the Spanish and the International market.

THE APPLIANCES:

Not only do "Bosch" appliances fit seamlessly with any kitchen but the performance and reliability of its high-quality products also perfectly complement its users daily routines. We chose "Bosch" for its features and functions, which make every day easier and more enjoyable.

THE COMFORT:

Although we have one of the world's best climates, winters can also get sometimes a little chilly. Our villa offers an under floor heating solution throughout the ground floor and the first floor level, which creates an effortless cozy barefoot winter feeling and undeniable modern luxury extra to the new style home.

THE PARKING:

Because the car is one of the most prized possessions of any family, it is a great investment to keep it safe. Therefore, we chose to install a carport for 2 cars as a parking solution. We consider that a carport can be at the same time beautiful and unobtrusive addition to the property.
